FTNF FLAVOURS

- Pomegranate
- Strawberry
- Apple
- Apricot
- Cherry
- Pear
- Quince
- Peach

Our natural water based aromas are extracted at the juice concentrate processing stage. Range of aromas listed below includes some of our main titles in our product portfolio.

OUR SUSTAINABILITY PHILOSOPHY

We work for a sustainable system on a global and national scale with environmental, social, economic and agricultural activities.

 works for the protection and improvement of natural resources in many areas such as less pollution to the environment, less soil erosion, protection of the wildlife, chemical wastes, water pollution, and work in full compliance with the EU green agreement.

 strives to improve the welfare of it's community and treat it's customers, supplier, employees with respect and integrity.

FRUIT SEEDS / KERNELS AND BY-PRODUCTS

Fruit seeds are obtained by washing, cleaning and drying the seeds separated from the fruit during organic fruit production; It is used in the production of essential oils, cosmetics, food supplements and various extracts. Available in Organic and Conventional range.

- Pomegranate Seeds / Kernels
- Apricot Seeds / Kernels
- Sour Cherry Seeds / Kernels
- Wild Rosehip Seeds Kernels
- Wild Cornelian Cherry Seeds / Kernels
- Sweet Cherry Seeds / Kernels
- Sour Cherry Stem
- Sweet Cherry Stem
- Pomegranate Peel
- Apple Pomace
- Peach Seeds / Kernels

PACKAGING FEATURES

	Conical Steel Drums	Cylindrical Steel Drums	-217 L (Conical) and 213 L (Cylindrical) Steel Drums -Internal surface lac applied -FDA certified for storage and transport of various products in the aseptic bag
Upper Diameter	584 ± 3 (mm)	610 (mm)	
Bottom Diameter	525 ± 2/ -3 (mm)	610(mm)	
Height	960 ± 3 (mm)	880 ± 3 (mm)	
Sheet Thickness	0.7 (mm)	0.9 (mm)	

Aseptic filling, cold filling are done in Conical / Cylindrical Steel Drums. Net Weight of Products can be arranged as 190, 200, 210, 230, 240, 265, 275 kg per drum 110x110 cm pallets; Heat Treated (HT) standardized wooden pallets. The polyethylene bag is used to protect the aseptic bag from external factors. Aseptic bags we use are high barrier, suitable for all food products. The Styrofoam filler is used to prevent cracking in the aseptic bag during shipping.

Bins; 1.000 Lt cardboard bins for clear juice concentrate
High barrier 1.000 Lt aseptic bags

Flexitanks; 20.000 Lt tank for clear juice concentrate
High barrier 20.000 Lt aseptic bags

IBC; a food grade HDPE packaging with a volume of 1,000 L in a metal cage, suitable to be use for concentrated products where aseptic filling is not required. Available in different options such as wooden, metal or plastic pallets.

Bag-in-Box; 10 kg or 20 kg aseptic bags placed inside corrugated cardboard boxes. It is filled upon request.
