COMPOSITE POLES

Due to the composite structure of plastic and sheet metal combined with a special technique, it is at least 30% more resistant to bending from similar size poles.

Because of its plastic coated surface, it is highly resistant to corrosion and it is long-lasting.

The universal end is compatible with many apparatuses.

It provides ease of purchase and sales with its economical price.

Adjustable Composite Pole

2 Stage Composite Extension Pole

Code	max (m)	min (cm)	Stage	Box

EFFECT SERIES

APPLICATION

⚠ For having clear figure use effect paint.

1
Please apply lining paint and wait until it is dry. For not drying up effect paint, wet gently over the lining paint.

2
Apply the effect paint on the lining. Remove the excessive of paint by using sponge roller.

3
Before the effect paint dry using effect tool you can make figure by pressing the tool on the wall.

MATERIALS REQUIRED

Paint and application for painting background.

Sponge and water for making wet the background.

Effect paint and roller to apply effect for second layer.

Sponge roller for removing the excess of paint.

The tool for the effect to be applied.

First and second layer of paint will appear final touch over your wall. Keep this in mind when choosing colors for each floor. Effects may vary depending on the applied techniques and paint. Before application a good idea to create a test area to experiment.

MACHINES

Whitewash Tank

1300	1305 + 1310 + 19,69 ft / 6 m hose
	1 Box

Used in limewash applications. Tank with a storage of 5 tins of limewash operates with 4 bar pressures. It requires air-compressor connection.

Code	Product	Box
1300	Machine Set	1
1305	Whitewash Tank	1
1310	Whitewash Head	1

1302	Machine Set	1
1303	Tank 10,6 gal. / 40 Lt	1
1304	Spraying Gun	1
1311	Spray Nozzle of Gun	1

Interior Decorate Spraying Machine

1302	1303 + 1304 + 19,69 ft / 6 m hose
	1 Box

Used for internal facade coating or applying the face rite paint on plaster, concrete, gauging plaster, wooden Natural boards and prefabricated surfaces in interior decorations. Creates large and small grains on walls. Requires a set with a 19,69 ft hose and a 10,6 gal. storage tank, and 5 bar compressor connection. Size of the grains can be adjusted using the pressure and paint adjustment valves on the gun.

1306	Complete Set	1
1307	Spraying Gun	1
1308	Tank 0,52 gal. / 2 lt	1

Exterior Surface Acrylic Spraying Gun

1306	1307 + 1308
	1 Box

Used in External decoration applications with paint gun with acrylic External mineral-sanded coating paints. The gun operating with 5-7 bar pressure requires a compressor connection. The gun creates large and small grains on walls. Grain size is adjusted using pressure adjustment screw at the backside of the gun.
